Mertech Is Now Hiring!

Attention: Upcoming December Grads & Alumni we have an Immediate need for **2 Full-Time Entry Level Programmers** to join our Fresno based software and services team.

Company Overview:

Since incorporation in 1997, Mertech has established itself as a leading provider of products and services that help companies modernize their databases and software to work in the connected world. Our products become an essential part of a company's digital transformation journey, assisting businesses in seamlessly integrating on-premise data and business applications with their cloud infrastructure.

We offer employees...

A stellar opportunity to gain "real world" programming experience
An employee-centric culture where learning and growth are encouraged.
A collaborative team/work environment where you will contribute to a wide variety of projects.
An opportunity to work with emerging technologies while discovering solutions that have a direct business impact.
Workstations with adjustable height desk equipped with 2 monitors on each desk.
Bean bags, quiet areas & games for when you need a little "mind break"...
A break room stocked with great snacks!
Health & Welfare Benefits, 401K & A Bonus Opportunity
